

Please see the notice below regarding the account information your joint owners can view.

Your joint owners have the same view as the primary member in Online Banking, the Mobile App and BHFCU's ATMs equipped with Tap for a Teller and/or self-service features. Joint owners will have access to all statements, documents, and activity for all deposit accounts and loans associated with the primary membership, including accounts held individually. For example, a joint owner will have access to an auto loan solely held by the primary member.

Stop by any of our locations or call us at 605-718-1818 if you have any questions regarding the information joint owners can view.
